Hello CD 13, below is the summary for PATH outreach in CD 13 last week. PATH is contracted to perform 8 hours on Mondays and Wednesdays for a total of 16 hours per week in CD 13.

- This week we worked with approximately 20 people
 - Of these, 17 were new contacts
- From the locations that we visited this week, we identified **Vermont/Hollywood as being the most populated and Lucas/Beverly being the least populated.**
- Approximately 4 people have been identified as being more vulnerable
- 5 people have potential permanent housing referral options.

Special notes and targeted outreach requests

- *The Silverlake underpass encampments:* have all completely relocated to unknown locations due to clean ups.
- *St. John Encampments:* The team continues to consistently outreach a man on St. John who has become known to business owners in the area due to his high amount of "trash" and odorous camp. Although the team has made significant progress engaging this man, he has proven to be very reluctant to engage overall and is on our team's "Long Engagement" and "Most Vulnerable" lists. Although there are other people at this location, these are people who have simply relocated for various reasons from other parts of CD 13. The team is actively working with these other people as well on case management and possible linkage to programs.
- *LA River Bike path encampments:* The team outreach a small encampment on the LA River per the request of Hector, CD 13 field deputy. The team discovered that this was a couple that the team had previously engaged but then lost contact with (so, thank you Hector!!) The team was able to re-engage and are currently working with the couple on case management tasks to link them to appropriate support (including the possibility of Family Solution Center linkage.)
